Investigative Purpose

Offense Type, Case Number & Search Reason configuration.

 Edit

Statewide and Nationwide Networks

Statewide and nationwide network access is reciprocal: license plate data collected by your cameras and searches your agency performs will be accessible to all agencies enrolled in the same network. All searches performed across Statewide or Nationwide Networks will appear in other participating agencies' audit logs and may appear in Analytics/Insights.

Access Statewide Network

 Edit

State and Federal Hotlist Sources

Enable authorized hotlist sources for users' alert feeds. Customize source and topic access by role in Admin Alerts and FlockOS.

NCMEC Amber Alert NCIC

Access to change Hot List Sources is restricted. Please contact your CSM for further assistance.

Treat Unknown Plates for Hot List Alerts As...

Choose a default state(s) to apply when a license plate alert does not include a state value.

Connecticut Delaware New Hampshire New Jersey New York Pennsylvania Rhode Island Vermont Virginia
